*Report from Turpan—Epidemic smallpox.*

Consul Lespinasse reports, February 7, as follows:

An epidemic of smallpox prevails in this vicinity, but the settlements and municipalities included in this county are exempt from the disease.

Since November 29, the date on which the first case of the epidemic occurred, 60 cases have been recorded, of which 26 have recovered, 12 have ended fatally, and 22, most of whom will recover, are still under treatment.

The measures adopted to check the course of the epidemic consist of isolation of the sick, necessary aid to the sufferers, and prompt disinfection of the houses in which smallpox patients have been treated.

#### NORWAY.

*Quarantine proclamation.*

The following is received from Consul-General Bordewich, at Christiania, under date of February 15:

From the present list of ports infected with cholera the following places are now to be omitted: The provinces of Lomza and Siedlce in Russian Poland.

According to previous proclamations Palestine and Syria are at present to be considered infected with cholera.

Vessels having cholera patients on board and bound for Norwegian ports should be directed by the pilots to the quarantine station at Odderøen, near Christiansand. In other ports the captains are to keep their sick people on board and in meantime be kept in quarantine.
